## CARTOGRAPHY & INFORMATION DESIGN

TECHNIQUE • PUBLIC SERVICE • GEOHACKING • MAP COLLECTION • ART • RESEARCH • GEODESIGN

**How does design make a difference?** *Cartography and information design is one of the fastest growing professions in the twenty-first century. Our enduring passion is to render our social, economic, political and natural world intelligible and actionable through design. With presentations from government, academic, and commercial leaders, NACIS is a diverse creative community that for thirty years has provided an opportunity to engage, learn, interact, invent and be inspired.*

### CALL FOR PARTICIPATION

#### **DUE: May 23** call for sessions, panels & workshops

The program committee invites you to submit proposals to organize intriguing sessions, panels, discussions, and workshops. We will entertain all creative ideas!

Please submit a 100 word description and title of your proposed session, including names of possible presenters. Individual presentation descriptions should follow the instructions below.
