EDUCATION: KENNESAW STATE UNIVERSITY
Bachelor of Arts in Geography July 2012

CAREER OBJECTIVE: To obtain a position analyzing data for geographic information systems and providing cartographic and GIS services.

EXPERIENCE:

1/2012 to 4/2012 Kennesaw Mountain National Battlefield Park Kennesaw, GA

Cartographer

Designed and produced maps utilizing ArcGIS software. Created and update map projects; Completed project work as requested and, produced maps.

Cartography skills were an asset during the internship. One particular skill was the use ArcGIS. A willingness to learn also allowed for standing out. Skills acquired during the internship included the use of GPS software and its units. Skills brought to the table as well as acquired skills aided in designing an environmental trail map and a new park map. The park ranger commented that the new park map was the most accurate he had seen.

Experience of recent in using ESRI's ArcGIS software; training in ESRI GIS software applications; or related work experience at the local government level

1/2011 to 5/2012 ISRS at Kennesaw State University Kennesaw, GA

Student Assistant

Answering phone calls, created bulletin boards, assisted students with questions ranging from scholarships to student visas, made copies and putting together pamphlets, assisting in enforcing the rules of the International Student Retention Services.

Aspects that allowed for standing out as a student assistant were creativity and taking initiative. Helping students was a required duty. The aspect of taking initiative included walking a student to that specific building, as oppose to merely mentioning the location. Creating bulletin boards is where the aspect of creativity stood out. The themes chosen were world events and facts about different nations. Creativity was also used in making and presenting a PowerPoint slide show regarding the subject of geography.

OTHER SKILLS AND ACCOMPLISHMENTS

- Experience using Microsoft Office Applications.
- Experience with ERDAS Imagine, GPS, ArcGIS, and Adobe Illustrator
- Familiar with geographic analyses, tables, and graphics,
