- Creating and maintaining spatial datasets and manage GIS development from scratch
- Providing support to the exploration teams and assisting with the geophysical surveys
- Database management- geophysical and geological
- Creating maps for environmental studies, land access
- Maintaining mineral and coal tenement obligations schedules

RECOMMENDATIONS

Jon Berry

Senior Consultant at ITS Gobaal

Andras is a highly-skilled, detail-oriented GIS specialist and I would have no reservations in recommending his work. He completed complex tasks in a methodical manner, and presented results effectively to non-experts. October 4, 2012, Jon worked directly with Andras at AuzMinerals Resources Group; Solar Silicon Resources Group

Jason May

CTO at Solar Silicon Resources Group Pte Ltd

Andras does a great job, making our maps look extremely professional. He is quick, responsive and understands what we require. Great work all round.

October 1, 2012, Jason was Andras's client

Collins Ong

Consultant - Procurement, Supply Chain and Operations

Having worked with Andras, I have found him to be a reliable and helpful colleague who delivers high quality mapping work and technical drawings using AutoCAD and other GIS tools. He is definitely an asset to any organisation requiring GIS expertise and I highly recommend him.

June 4, 2012, Collins managed Andras indirectly at AuzMinerals Resources Group; Solar Silicon Resources Group

Ian Wilson

Chief Geologist at AuzMinerals Resource Group Pte Ltd

Andras has been utilizing his existing GIS knowledge to good effect and confidently extending his skills with his focus on mineral exploration tasks during the past year.

March 17, 2012, Ian worked directly with Andras at AuzMinerals Resources Group; Solar Silicon Resources Group

GIS-Cartographer Lonely Planet, Melbourne
Cartographic Operations / secondment 2 months
September 2008 – May 2011 (2 years 9 months)

- Production of maps in AutoCAD, ESRI ArcGis, Adobe Illustrator
- Coordinating the mapping of travel books, creating and testing GIS data
- Asia-Pacific group
- Initiator of QA program “Green Lamp”

RECOMMENDATIONS

Chris Lee-Ack

Cartographic Support & Training Manager at Lonely Planet

I worked with Andras for 3 years as Cartographer at Lonely Planet. In this time he demonstrated a high degree of technical skill and creative flair. He has an absolute passion for map-making and great understanding of what it takes to make good maps.

June 12, 2012, Chris worked directly with Andras at Lonely Planet

Piotr Czajkowski

Senior GIS Analyst at Lonely Planet Publications

Andras is an innovative employee with boundless creativity. I enjoyed working with him on the various projects and I reckon that he provides good solutions to difficult situations. While working with Andras I found him well experienced in GIS & IT.

June 1, 2012, Piotr managed Andras at Lonely Planet

- 1997 Creating the **first digital made paper globe** in Hungary
- 1998 Creating **the first Hungary internet map** in collaboration with ELTE University
<http://lazarus.elte.hu/moterkep/mb.htm>
- 1999 Creating for the Hungarian GPS market **the first digital GPS road map** of Hungary for Garmin Fugawi software
- 2000 Hungary map conversion for Vivendi Telecom Hungary used in business plans for future operations (tenders)
- 2004-2007 Hungary map scale 1:150.000 GIS/cartography, managing mapping project in Microstation+GIS Tools for the Freytag&Berndt Austria (app. 4800 working hours)
- 2006 Producing and selling **250.000** pieces of road atlases for British American Tobacco (the annual market sales in this field was 50.000)
- 2007 Real estate map of Budapest for CB Richard Ellis

Gabor Herczog

Managing Director at Stiefel Eurocart Kft

Andras is a very creative cartographer. He changed the idea we had about a road map. As a leader of a map publishing house I worked with him more times and he could fulfill all of our orders in good quality. He was ready to think together about new products and design.

January 7, 2013, Gábor was Andras's client

Prajczer Tamas

Owner, GeoX Ltd.

I can recommend Andras Bogdanovits as a person with great proficiency and deep recognition of modern business solutions. Andras Bogdanovits was one of the most dedicated professionals through his work at PannonCart. Andras Bogdanovits is a careful team player, his knowledge in Cartography and GIS is vast and thorough. Thanks to interpersonal skills he has great relations with both company clients and potential customers.

June 4, 2012, Prajczér was with another company when working with Andras at PannonCart Ltd. Hungary

László Turi

Telecom Trainer Specialist at Vodafone

Andras is an excellent cartographer who is ready to work with customers in a flexible and cooperative way and same time produce high quality output even in demanding circumstances.

August 11, 2009, László was Andras's client

Graphic Design and Communication Lecturer Eotvos Lorand University **2005 –2008**

- Teaching Graphic Design and Visual Communication
- Adobe Suite

Cartographer Cartographia Ltd Hungary
October 1992 – March 1996 (3 years 6 months)

- Mapping technology development
- Production of maps in AutoCAD

Csilla Pataky

Key Account Manager, International at CASON Engineering Plc.

I recommend Andras, who was technologically a very innovative colleague in the cartographic department of our company: the biggest map publisher in Hungary. A self-motivated entrepreneur type full with energy and devotion towards cartography.

June 8, 2012, Csilla worked with Andras at Cartographia Ltd.
